Short hours details: Any enrollment less than 9 s.h. is considered less than full-time for graduate students. A short hours form is recommended if a student may be obtaining financial aid and has a minimum requirement for enrollment or if the student may be deferring previous student loans and has a minimum requirement for enrollment. Further, IRS regulations state that a student employee has to be doing research in fulfillment of their degree and enrolled as at least a half-time student in order to qualify as exempt from FICA withholdings. International students should also be pay close attention to any enrollment minimums required of them. **Short hours, the short version:** If you're going to register for fewer than 9 s.h. it's a good idea to fill out a short hours form.
